

Audioarts Engineering Net-75 Panel

Connect eight studios with just eight wires

SIX FADERS INTEGRATE THE D-75 CONSOLE WITH YOUR STATION'S DIGITAL AUDIO NETWORK:

Fully integrated network system allows autonomous console operation when needed

- **Allows 6 faders within the D-75 to have access to thousands of system resources**
- **Seamless integration with the D-75 console**
- **Input modules equipped with eight-character LED displays, rotary source selector and TAKE button**
- **Accepts analog and digital formats**
- **Single CAT5 connection allows for bi-directional studio and TOC signal sharing**
- **Installs in minutes**
